

UNIQUE
GRINDING
SOLUTIONS

MIGNON
SINGLE DOSE

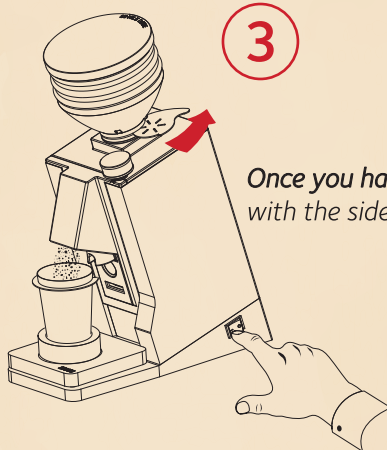

BEST PRACTICE

1 Weigh the desired amount of coffee

2 Check that the **bean hopper tab** is **closed** and then insert the coffee into the bean hopper

3 Once you have started the grinding with the side button, **open the tab**

4 As soon as the last coffee bean has dropped into the grinding chamber, **close again the tab**

5 Once the coffee no longer comes out of the outlet chute, **keep the tab closed** and **push the Blow Up System** applied on the bean hopper, for the time necessary to clean the grinding chamber

6 Turn off the coffee grinder
